

Environmental Policy Statement  
December 28, 2007

SET Environmental, Inc. recognizes that effective environmental management is one of our most important corporate values. We are committed to a continual improvement process that will help preserve, restore and enhance the environment. We will promote a corporate culture that integrates environmental performance and efficiency into our daily operations. SET Environmental, Inc. shall:

- Meet or exceed the requirements of all applicable environmental laws and regulations.
- Continually assess environmental impacts of SET operations and facilities and commit to minimizing these impacts through environmentally responsible practices.
- Efficiently use natural resources through energy conservation, recycling and waste minimization.
- Commit to emergency preparedness and an effective spill response program to minimize environmental impacts.
- Integrate environmental issues into daily operations and all business initiatives.
- Promote environmental issues into daily operations and all business initiatives.
- Promote environmental awareness and responsibility for our employees through ongoing education and training programs.
- Support, encourage and enable our employees to conduct all of their activities in an environmentally responsible manner.
- Set credible performance metrics and goals and continually measure our success against them
- Identify and seize opportunities to demonstrate our environmental leadership within our industry.
